Application for Salvage or Non-Repairable Certificate

PURPOSE: A "Salvage Vehicle" is a passenger motor vehicle which has been wrecked, destroyed, or damaged to the extent that the repair costs would exceed 75% of the retail value of the vehicle. A "Non-repairable vehicle" is a passenger motor vehicle which is incapable of safe operation for use on roads or highways and which has no resale value, except as a source for parts or scrap (Tenn. Code Ann. § 55-3-201). After the vehicle has been deemed a total loss and a total loss claim has been paid, the insurance company or owner must obtain a Salvage or Non-Repairable Certificate by submitting this application. These certificates of title serve only to establish ownership of the vehicle. No vehicle deemed as Salvage or Non-repairable can be registered in or operate on the roads and highways of the state of Tennessee. A vehicle that receives a Salvage Certificate may be rebuilt to be road worthy, but must first go through the Rebuilt Vehicle process. There is no cost to obtain a Salvage/Non-Repairable Certificate.
